## Notification

The following notification is being circulated in accordance with Article 10.4.

### 1. Party to Agreement notifying: India

### 2. Agency responsible: Indian Standards Institution

### 3. Notified under Article 2.5.2, 2.6.1, 7.3.2, 7.4.1, Other:

### 4. Products covered (CCCN where applicable, otherwise national tariff heading):

Hydraulic cement (CCCN 25.23)

### 5. Title: Doc:BDC 2(4137)-(4149)

Methods of Physical Tests for Hydraulic Cement (Part 1-13) (First revision of IS:4031)

### 6. Description of content:

Methods of tests for fineness, soundness, consistency of standard cement paste, initial and final setting times, compressive strength of hydraulic and masonry cement, compressive and transverse strength of plastic mortar, heat of hydration of low heat portland cement, drying shrinkage of portland pozzolana cement, density, air content, and water retentivity of masonry cement.

In this revision, brief description of the instruments given in the earlier version has been deleted giving reference to the instrument specifications formulated. The standard has been split into thirteen parts. Quality of water to be used has been specified where necessary. Criteria for acceptance of compressive strength results has been specified.

### 7. Objective and rationale:

Facilitate use and updating of the standard

### 8. Relevant documents:

(a) Basic document is IS:4031-1968, Methods of Physical Tests for Hydraulic Cement.

(b) Notice appears in Standards Monthly Additions.

(c) On adoption, notice will appear in Standards Monthly Additions, Gazette of India and ISI Bulletin.

### 9. Proposed dates of adoption and entry into force: After about one year

### 10. Final date for comments: 10 October 1985

### 11. Texts available from: National enquiry point or address of other body:
