NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: JAPAN

2. Agency responsible: Engineering Office, Telecommunications Services Department, Telecommunications Bureau, Ministry of Posts and Telecommunications

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):
   terminal equipment for the public switched telephone networks (telephone, facsimile, data terminal, PBX, MODEM, acoustic coupler, etc.)

5. Title: Establishment of the technical standards for terminal equipment connected to public switched telephone networks (PSTN)

6. Description of content: The standards specify the electrical and network control requirements for terminal equipment connected to the PSTN. They are based on current technical requirements established by Nippon Telegraph and Telephone Public Corporation (NTT) and set down minimum technical requirements in order to prevent the damage to networks, to prevent inconvenience to other users and to clarify the division of responsibilities.

7. Objective and rationale: To ensure the sound development of telecommunications

8. Relevant documents: The basic law is the Telecommunications Business Law. The establishment of the said standards will be published in "KAMPO" (Official Government Gazette) when adopted

9. Proposed dates of adoption and entry into force: 1 April 1985

10. Final date for comments: 23 March 1985

11. Texts available from: National enquiry point [X] or address of other body:
