The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: **SWEDEN**

3. Notified under Article 2.5.2 [x], 2.6.1 [], 7.3.2 [], 7.4.1 [], Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):
   Capacitors for use in tubular fluorescent and other discharge lamp circuits (ex CCCN 85.18)

5. Title: Safety of Capacitors for use in tubular fluorescent and other discharge lamp circuits - General requirements and tests

6. Description of content: The Swedish National Energy Administration will approve test methods according to draft Swedish Standard SS 431 04 66. The draft corresponds to the IEC Publications 566, Second edition, 1982. However, certain deviations have been made. The Swedish Standard is intended to be used in connection with compulsory approval to be carried out by SEMKO, the Swedish Institute for Testing and Approval of Electrical Equipment.

7. Objective and rationale: Protection for safety to man and property

8. Relevant documents: The National Energy Administration will publish a regulation in which reference is made to the Standard SS 431 04 66. When adopted the Standard will also bear the reference SEMKO 9566.

9. Proposed dates of adoption and entry into force: To be determined later

10. Final date for comments: 31 May 1985

11. Texts available from: National enquiry point [x] or address of other body:
