NOTIFICATION

The following notification is being circulated in accordance with Article 10.4

1. Party to Agreement notifying: SWEDEN

3. Notified under Article 2.5.2 2.6.1 7.3.2 7.4.1 Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):
   Electrical Information technology equipment including business equipment.
   (ex CCCN Chapter 84)

5. Title: Electrical Information Technology Equipment Including Business Equipment - Safety

6. Description of content: The Swedish Electrotechnical Commission has elaborated a draft standard concerning requirements and testing methods for electrical information technology equipment including business equipment. The standard will consist of the English version of IEC Publication 950, First edition, 1986, Safety of information technology equipment including electrical business equipment, together with an annex, containing Swedish deviations to the IEC Publication. The Swedish National Energy Administration will approve the requirements in the draft standard which is intended to be used in connection with the compulsory approval to be carried out by the Swedish Institute for Testing and Approval of Electrical Equipment, SEMKO. The draft standard will be published as a Swedish standard to which the National Energy Administration will refer.

7. Objective and rationales: Protection for safety to man and property.

9. Proposed date of adoption and entry into force: To be determined later.

10. Final date for comments: 4 September 1987
