The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: **SWEDEN**

2. Agency responsible: The National Chemicals Inspectorate

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):

   Products containing formaldehyde

5. Title: Draft Proposal for Amended Recommendations in the List of Substances Which Should be Labelled with Regard to Cancer Risk

6. Description of content: The Inspectorate published a recommendation list of chemicals associated with a risk of cancer on 1 July 1986. The list includes very dangerous products and dangerous products (as draft notified in TBT/Notif.85.127). The Inspectorate now proposes that products with formaldehyde concentrations between 0.1-1 per cent should be classified as dangerous products and products with concentrations of formaldehyde over 1 per cent should be classified as very dangerous products. Products containing more than 0.1 per cent of formaldehyde should be labelled with information on the cancer risk.

7. Objective and rationale: Protection for human health or safety

8. Relevant documents: Will be published as recommendations in the Code of Statutes of the Swedish National Chemicals Inspectorate (KIFS)

9. Proposed date of adoption and entry into force: The proposal will be adopted after public enquiry and enter into force in this autumn

10. Final date for comments: 29 August 1988

11. Texts available from: National enquiry point [X] or address of other body:
