NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: SWEDEN

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], Other:

4. Products covered (CCCN where applicable, otherwise national tariff heading):
   HS ex 85.36

5. Title: Draft Swedish Standard for Ducting Systems to Be Mounted Below Windows and Apparatus Mounting Panels - Requirements and Testing Methods (SS 424 10 32)

6. Description of content: The Swedish Electrotechnical Commission has elaborated a Draft Standard concerning safety requirements and testing methods for ducting systems to be mounted below windows and apparatus mounting panels. The standard is intended to be used as a basis for the compulsory approval to be carried out by the Swedish Institute for Testing and Approval of Electrical Equipment, SEMKO.

   The Standard will be published as a Swedish Standard to which the National Energy Administration will refer.

   The Standard is intended to be applied in Sweden pending the ongoing international standardization work concerning cable trunking and ducting systems.

7. Objective and rationale: Protection of human safety

9. Proposed dates of adoption and entry into force: To be determined later

10. Final date for comments: 7 October 1988

11. Texts available from: National enquiry point [X] or address of other body:
