1. Party to Agreement notifying: **REPUBLIC OF KOREA**

2. Agency responsible: **Ministry of Communications**

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], Other:

4. Products covered (HS or CCCN where applicable, otherwise national tariff heading):
   - Telecommunications terminal equipments

5. Title: **Telecommunications Technical Regulation**

6. Description of content:
   - **EMI:**
     - EMI is limited for terminal equipment that generates and uses timing signal or pulses at a rate in excess of 10,000 pulses (cycle) per second and used digital techniques
   - **Environment simulation:**
     - Terminal equipment shall comply with all the criteria contained in this regulation both prior to and after the application of each of the mechanical and electrical stress (vibration, temperature and humidity, shock, voltage surge)
   - **Insulation limitations**
   - **Longitudinal balance limitations, cross-talk limitations**
   - **On-hook, off-hook impedance limitations:**
     - Condition for network control
   - **Signal power limitations:**
     - Limitation of signal power other than voice; such as holding tone, recorded voice for automatic answering .... etc.

7. Objective and rationale: Delete the condition of performance and compatibility from the existing regulation.
8. Relevant documents:

9. Proposed dates of adoption and entry into force: 1 July 1990

10. Final date for comments: 28 February 1990

11. Texts available from: National enquiry point [ ] or address of other body:
