The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: SWEDEN

2. Agency responsible: National Telecommunications Council

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], other:

4. Products covered (HS or CCCN where applicable, otherwise national tariff heading):

   Telecommunications terminal equipment

5. Title: Rules and Regulations of the National Telecommunications Council (STN) Concerning the Technical Design of Cordless Telephone Sets

6. Description of content: Cordless telephone sets may be connected to the public telecommunications network if they fulfil the technical requirements set forth in the following standards:

   Swedish Standards (SS):
   - EN 41 003 regarding mains power;
   - 447 20 22 Class B regarding radio interference (corresponds to CISRPR 22 with a Swedish deviation);
   - 63 63 37 in accordance with the second edition if 4 December 1991, with the exception that the reference here below mentioned standard shall apply instead of reference to Net 4.

   Televerket’s Standard (TVT-Standard):

   SS is issued by the Swedish Standards Institute. TVT-Standard is issued by Televerket (Swedish Telecom).

   Equipment that meets the requirements according to the previous statute (STNFS 1989:11) may be connected to the public telecommunications network if it has been registered before the end of 1992.

   Provisions about licence to possess and operate radio transmitters can be found in the Radio Act.
