NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: SWEDEN

2. Agency responsible: National Telecommunications Council

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], other:

4. Products covered (HS or CCCN where applicable, otherwise national tariff heading):
   Telecommunications terminal equipment

5. Title: Rules and Regulations of the National Telecommunications Council (STN)
   Concerning the Technical Design of Equipment to be Connected to Leased Telephone
   Circuits.

6. Description of content: Equipment to be connected to leased telephone circuits in the public telecommunications network may be connected to the public telecommunications network if it fulfils the technical requirements set forth in the following Standards:

   - Swedish Standards (SS).
   - EN 41 003 regarding mains power
   - 447 20 22 Class B regarding radio interference (corresponds to CISPR 22 with a Swedish deviation).
   - Televerkets's Standard (TVT-Standard):
   - SS is issued by the Swedish Standards Institute.
   - TVT-Standard is issued by Televerket (Swedish Telecom).

   Equipment that meets the requirements according to the previous statute (STNFS 1989:5) may be connected to the public telecommunications network if it has been registered before the end of 1992.

7. Objective and rationale: Protection of the public telecommunications network.

92-0080
9. Proposed date of adoption and entry into force:

| Entry into force: | 1 April 1992 |

10. Final date for comments: 6 March 1992
