NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: **SWEDEN**

2. Agency responsible: National Telecommunications Council

3. Notified under Article 2.5.2 [X], 2.6.1 [], 7.3.2 [], 7.4.1 [], other:

4. Products covered (HS or CCCN where applicable, otherwise national tariff heading):

   Telecommunication terminal equipment

5. Title: Rules and Regulations of the National Telecommunications Council (STN)
   Concerning the Technical Design of Terminal Equipment Intended for Connection to
   Integrated Services Digital Network (ISDN) Using Basic Access - Layers 1, 2 and 3

6. Description of content: Equipment intended for connection to ISDN using basic
   access - Layers 1, 2 and 3 - may be connected to the public telecommunications
   network if it fulfils the technical requirements set forth in the following
   standards:

   - Swedish Standard (SS);
   - NET 3-1;
   - ETS 300 104;
   - EN 60 950 regarding mains power;
   - 447 20 22, Class B, regarding radio interference (corresponds to CISPR 22 with
     a Swedish deviation);

   Regarding Layer 3, the equipment may also be connected if it fulfils the
   requirements in Televerkets Standard (TVT Standard) MX/MI 1056-038, Rev. A
   1987, instead of the requirements in SS ETS 300 104;

   SS is issued by the Swedish Standards Institution;

   TVT Standard is issued by Televerket (Swedish Telecom).

   Equipment that meets the requirements according to the previous statute may be
   connected to the public telecommunications network if it has been registered
### 7. Objective and rationale: Protection of the public telecommunications network

### 9. Proposed date of adoption and entry into force: 1 July 1992

### 10. Final date for comments: 22 June 1992
