NOTIFICATION

The following notification is being circulated in accordance with Article 10.4.

1. Party to Agreement notifying: SWITZERLAND

3. Notified under Article 2.5.2 [X], 2.6.1 [ ], 7.3.2 [ ], 7.4.1 [ ], other:

4. Products covered (HS or CCCN where applicable, otherwise national tariff heading. ICS numbers may be provided in addition, where applicable):

Printers with printing speed up to twenty-five copies per minute, including the power supply adapter provided by the manufacturer. Printers processing exclusively paper sizes smaller than A4 are not required to fulfill the consumption target values.

5. Title and number of pages of the notified document: Annex 11 to the Regulation Concerning an Economical and Rational Energy Use

6. Description of content: To reduce the power consumption of printers, a target value (target values are not equal to standards. They indicate the power consumption in stand-by and off mode that should be reached by the end of 1996. Target values do not restrict the trade of appliances sold within Switzerland.) Z in Watt [W] for off mode and stand-by mode are given.

<table>
<thead>
<tr>
<th>Operation mode</th>
<th>Target value Z</th>
</tr>
</thead>
<tbody>
<tr>
<td>Off mode</td>
<td>Z = 0.5 [W]</td>
</tr>
<tr>
<td>Stand-by mode</td>
<td>Z = 2 [W]</td>
</tr>
</tbody>
</table>

7. Objective and rationale: Economical and rational use of energy. Target values are an essential part of the Swiss Programme "Energy 2000" which aims, inter alia, at a stabilization of the electric energy consumption by the year 2000.
8. Relevant documents: The power consumption is measured according to the Standard given in the Swiss Departmental Regulation.

9. Proposed date of adoption and entry into force: 1 June 1994

10. Final date for comments: 6 January 1994

11. Texts available from: National enquiry point [X ] or address and telefax number of other body:
