NOTE BY THE SECRETARIAT CONCERNING THE
"FINAL ACT AND RELATED DOCUMENTS"

The text of the "Final Act and Related Documents" is being circulated today in both French and English. As indicated inside the title page of that document, delegations are urged to examine the text with care in order that any errors may be detected in time to be corrected in the original text before signature. If any such errors are to be corrected it will be necessary for the Secretariat (Miss Kent, Room 4-97, extension 97) to be informed in writing of them by 11.00 a.m., Tuesday, 23 March.

It should be noted that the search for typographical errors should not include the Final Act itself or the Signature List which follows it since this part of the document is being produced separately in New York in the five languages.

The present edition is a limited one and it will be possible to supply each delegation with only a limited number of copies. Delegations desiring to secure copies of the sales edition, which is expected to be available in New York within a week or ten days from the end of the Conference, should direct their requests as soon as possible to the Documents and Sales Section of the United Nations, Lake Success, New York.
