The following letter to the Chairman of the General Committee from the Leader of the Ceylon delegation is circulated herewith for the information of the members of the General Committee:

"Sir,

In view of the increasing number of Sub-Committee meetings which are scheduled to meet each day, it has become impossible for the smaller delegations to send representatives to these meetings even as observers. In order to enable the smaller delegations to follow the work of the Conference, it would be very helpful if short summary records of their meetings, on the lines of the summary records of the meetings of the six main committees, are produced and circulated. Whenever it is considered necessary, such records could be marked "Confidential". I trust you will give this suggestion consideration at the next meeting of your Committee.

Yours faithfully,

G.C.S. Corea
Leader, Ceylon delegation"
