GENERAL COMMITTEE

PROPOSAL REGARDING THE COMPOSITION OF A CO-ORDINATING COMMITTEE

Note by the Executive Secretary

The meeting of Heads of Delegations held on Saturday, 31 January adopted a Resolution to constitute a Committee of Co-ordination for the purpose of facilitating the speedy completion of the work of the Conference by endeavouring to find bases for resolving certain questions, the solution of which through the normal work of sub-committees may prove especially difficult or prolonged. It was agreed that the Co-ordinating Committee should operate without interfering or in any way retarding the work of the sub-committees.

It is suggested that the General Committee should make the following proposals to the Heads of Delegations for implementing the Resolution:

(a) The Co-ordinating Committee should operate on the basis of the preamble to this paper.
(b) The Committee should be composed of a Chairman and ten members as follows:
   (The President of the Conference will present suggestions orally for the composition of the Committee.)
(c) The Committee should consult as necessary with the Chairmen of the Committees and sub-committees concerned with the points under consideration by the Committee and may consult with such other delegates as it thinks fit.
(d) Any Head of Delegation not represented on the Committee may consult with the Committee for the purpose of raising with it problems of particular importance to his delegation.
