1. The Turkish amendment to paragraph 2 of Article 10 (page 3 of E/CONF.2/C.2/9) was referred to Working Party No. 3 by the Joint Sub-Committee of Committees II and VI at its thirteenth meeting (E/CONF.2/C.2&6/A/W/11).

2. At the meeting of the Working Party on 10 January, the representative of Turkey presented a further text taking the form of an additional paragraph 3 in Article 10 as follows:

"The Organization shall co-operate fully with the Economic and Social Council of the United Nations and with all appropriate inter-governmental organizations on all phases of economic development within their special competence and in particular in respect of financing, equipment, technical assistance and the provision of managerial skills essential to the development of under-developed countries."

The representative of the International Bank for Reconstruction and Development indicated that he was in agreement with this text.

3. There was a discussion in the Working Party with regard to the last words of the aforementioned text, namely, "essential to the development of under-developed countries". The working Party decided to put forward to the Joint Sub-Committee the following two texts:

Text A:

"3. The Organization shall co-operate fully with the Economic and Social Council of the United Nations and appropriate Inter-Governmental Organizations on all phases of economic development within their special competence and in particular in respect of finance, equipment, technical assistance and managerial skills essential to the development of under-developed countries."

Text B:

"3. The Organization shall co-operate fully with the Economic and Social Council of the United Nations and appropriate Inter-Governmental Organizations"
Organizations on all phases of economic development within their special competence and in particular in respect of finance, equipment, technical assistance and managerial skills."

The Working Party was in substantial agreement that Text B was preferable in the light of the question of reconstruction. However, the representative of Turkey preferred the first text in order to stress the needs of under-developed countries. The representative of the Bank expressed his agreement with either text.
