1. The draft report of the Joint Sub-Committee on the Mexican Amendment to Article 9 was approved.

2. Paragraph 3 of new Article 12A proposed by the Colombian delegation was further discussed.

3. The principle of the paragraph was generally approved but there was disagreement as to whether the principle was already embodied in the Charter or whether it would be necessary to insert a new clause. It was decided that at its next meeting the Joint Sub-Committee would consider:

   (a) written proposals by the delegates for Australia, China and Mexico as to the place in the Charter where an additional clause should be inserted.

   (b) the suggestion made by the United States delegate that, if it were necessary to include an additional clause, then the question should be referred to Committee VI.
