1. Article 10
   In the last sentence of paragraph 2 of Article 10 add the following:
   "Capital goods, equipment and materials".
   Reason
   The amendment is intended to enlarge the scope of co-operation and
   assistance which the Members may seek from the Organization.

2. Article 12 paragraph (1)
   (a) Between the words "basis for" and "interference in" insert the words
   "Economic exploitation or".
   Reason
   This is to provide specifically against any act of exploitation by
   the Foreign Investors at the expense of the normal growth of the Member's
   economic resources.
   (b) The words "widest" and "greatest" occurring in the last sentence of
   paragraph (1) may be substituted by the words "Reasonable" and "Adequate"
   respectively.
   Reason
   The use of superlatives gives the impression that foreign investment
   is to receive a more favourable treatment than accorded to national
   investment.
   (c) Article 12 paragraph 2 (a) (iii)
   In the last sentence after the words "satisfactory settlement" insert
   the words "if possible".
   Reason
   This is to cover a case where a settlement is not reached.

3. Article 20 paragraph 2 (b)
   In the second line after the words "necessary to" add "safeguard the
   equilibrium of its economy or".
   Reason
   A Member must have the right to safeguard the dissipation of its Foreign
   Exchange and meagre resources and allow the import of only such merchandise
   as is necessary.
as is necessary to meet the requirements of its nationals according to
the economic plan of its Government. It may be mentioned here that the
Charter envisages planning by Members in order to achieve the aims set out
in Article 2, and a Member in the special circumstances of its economy
may have to resort to quantitative restrictions on imports and exports.

3. Article 75 Alternative A paragraph (1)(a)

For "India" read "India and Pakistan".

Reason
Throughout the Draft Charter "India" is understood to mean "India"
before partition. Attention is invited to page 59 of the Draft Charter
where India is grouped with other Empire Countries under Annex A and to
Appendix on page 65 where "India" is understood to mean "India" before
partition. Since the preparation of the Draft Charter "British India"
has been divided into two independent and sovereign Dominions and it is
but logical that this amendment is incorporated under Article 75.
