The CHAIRMAN made a short statement concerning the plan of work of the Working Party and said that measures falling under the provisions of Articles 13 and 14 could be divided into the following four general groups:

1. Measures consistent with the provisions of Chapter IV, but in conflict with a negotiated commitment;
2. Measures inconsistent with the provisions of Chapter IV and also in conflict with a negotiated commitment;
3. Measures inconsistent with the provisions of Chapter IV concerning a non-negotiated commitment;
4. Measures consistent with the provisions of Chapter IV concerning a non-negotiated commitment.

The report of the Working Party which was now before the Sub-Committee for consideration was only concerned with the first group of measures and he suggested that the other groups be dealt with consecutively in the above order.

The Sub-Committee confined itself to a general exchange of views concerning the new draft proposed by the Working Party, postponing detailed consideration of it until its next meeting.

The meeting rose at 1.00 p.m.
