
Paragraph 6 - Items 10, 21, 22, 23 and 24

The Sub-Committee considered the question whether measures other than anti-dumping and countervailing duties should be permitted under Article 33. The Chairman stated that there was a body of opinion in the Sub-Committee that measures other than anti-dumping and countervailing duties should be permissible. Some delegates expressed the opinion that paragraph 6 might render Articles 13 and 14 ineffective, but the Sub-Committee, generally, felt that the deletion of paragraph 6 would not have the effect of authorizing the employment of measures to counteract dumping which were not elsewhere permissible under the Charter.

The Chairman therefore, with the concurrence of the Sub-Committee, added to the terms of reference of the Working Party consisting of the representatives of Cuba, Lebanon, United Kingdom and United States, the following item:

"To consider whether paragraph 6 of Article 33 should be deleted or amended in the event that it could be interpreted so as to limit action permitted under Articles 13 and 14."

Mr. ASHFORD (United Kingdom) was elected Chairman of the Working Party.
