The delegate of the United Kingdom wishes to suggest the following amendment to paragraph 2 (c) of Article 20:

In the sentence beginning "Moreover, any restrictions............." delete the words "the total of domestic production" and substitute the words "the total quantity domestically produced or marketed".

For clarity it would then be desirable to replace the words "marketed or produced" in (1) by the words "produced or marketed".

Comment:

The restrictions on domestic agricultural production under sub-paragraph 2 (c) (1) may take the form either of restrictions on the quantity of the domestic product produced or restrictions on the quantity marketed. In the latter event, the quantity of imports permitted should clearly be related to the quantity of the domestic product which is marketed, as opposed to the quantity which is produced.
