The Sub-Committee continued its discussion of Article 91.

Several delegates favoured a further examination of the proposal of the delegation of France (document E/CONF.2/C.6/W.73). It was agreed, therefore, that the working party which would be eventually established to redraft Article 91 would consider the possibility and desirability of meeting the views embodied in this proposal.

The Sub-Committee then discussed the amendment of the delegation of Australia to paragraph 2 (document E/CONF.2/C.6/W.15). Several representatives opposed the amendment on the grounds that it tended to restrict the text which was not desirable or was unnecessary.
