At the request of the Turkish delegation the following paragraph should be inserted after the second paragraph of the summary of the Turkish delegate's speech (page 4, document E/CONF.2/SR.6):

When the articles were discussed the Turkish delegation would submit its observations and amendments, particularly regarding Article 16 dealing with preferences. If preferential treatment was to be maintained, the Turkish delegation would be compelled to ask for the inclusion of a preferential clause for the countries which were part of the former Ottoman Empire, especially as every commercial treaty so far concluded by the Turkish Government contained such a clause.
