Notification of Final Offers

With reference to Document E/PC/T/172 Add.1., several Delegations have questioned whether, when they have sent copies of all their final bilateral lists to all other Delegations, it is also necessary for them to distribute consolidated lists showing to which country each concession was granted.

The Tariff Negotiations Working Party agrees that it is not essential to do this in cases where a Delegation has sent copies of all its bilateral lists to all other Delegations, but feels nevertheless that it would be a great convenience to Delegations to have the information in question available in the consolidated form. The Working Party would therefore appreciate it if all Delegations would distribute marked consolidated lists, whether or not they have already circulated bilateral lists.
