The following corrections should be made to the remarks of Mr. R.J. Shackle:

Page 6: 7th line: delete "other".

Page 31: 6th line from foot of page: for "licences" read "claims".

2nd line from foot of page: after "see" insert "how".

Page 34: delete lines 20, 21 and 22 and substitute the following:

"I am not entirely convinced that this is a point of substance. It does seem to me that the view that it is such overlooks the distinction between Article 27 and State trading".

Page 40: Delete the first paragraph and substitute:

"MR. SHACKLE (United Kingdom): We also share the view of the New Zealand Delegation with regard to the proposed deletion of the proviso mentioned in Note 43 in our Working Paper. We feel that it would not be practicable or proper to disclose the names of firms, with the risk that this information might reach their competitors. Moreover, it might be regarded by firms as a breach of confidence if we were to give away their names".
