Committee III of the First Session of the Preparatory Committee approved a set of specific instructions to the Drafting Committee, setting out those reservations which were made and maintained at the First Session (document E/PC/T/C.III/W.5 of the First Session). The attention of the Drafting Committee is drawn to these instructions and to Part II, Chapter IV, Section H, page 19 of the Report of the First Session.

Paragraph 1
The last words of this paragraph may require later consideration in the light of the text of Article 1 which will be submitted to the Drafting Committee by the Administrative Sub-committee.

Paragraph 2 (a)
The phrase "among public commercial enterprises (i.e., trading agencies of governments or enterprises in which there is effective government control)" seems closely related to the definition of state enterprises in Article 31. The reason for the differentiation in formulation ought to be cleared up or otherwise a text consistent with Article 31 should be formulated.

Paragraph 3 (e)
This sub-paragraph might read as follows: "Suppressing the application of technology or invention, whether patented or unpatented".
