At the last meeting of the Heads of Delegations, Dr. Wunsch King, acting in his capacity of Chairman of Committee I, asked for guidance on a question relating to the resolution on international action regarding employment, contained in the Report of Committee I. Dr. KING raised the following questions:

1. Whether the resolution should be submitted to the Economic and Social Council as a resolution or a recommendation;
2. Whether the resolution should be submitted on behalf of the Trade and Employment Conference or on behalf of the Preparatory Committee;
3. Whether the resolution might be adopted by the Economic and Social Council itself, so that the Council would assume the tasks referred to in the resolution.

I have discussed this question further with Dr. Wunsch King and with others, and we agreed on the following procedure:

That the resolution should remain in its present form, i.e., as a draft resolution which the Preparatory Committee has under consideration for the agenda of the International Conference on Trade and Employment. As such it will be included in the interim report of the Preparatory Committee, but will not at this stage be brought specifically to the attention of the Economic and Social Council. This draft resolution, in common with the rest of the Report of the First Session of the Preparatory Committee, will come up for reconsideration at the Second Session at Geneva, when a final decision can be taken as to the action of the Preparatory Committee in this regard.
