The Heads of Delegations are invited to consider the following proposals by the Secretariat for the Agenda of the final plenary meetings of the Preparatory Committee. It is felt that two/three plenary meetings should suffice for this Agenda and that, dependent upon the progress of business, they might commence at 3 p.m. on Tuesday, 19 November.

Fifth Plenary Session

Tuesday, 19 November 3 p.m.

1. Report by Chairman on Credentials.

2. Resolution submitted by the United States Delegation concerning a meeting to negotiate a multilateral Trade Agreement embodying Tariff Concessions.

3. Resolution regarding the Report of the First Session of the Preparatory Committee, the appointment of a Drafting Committee, the further consideration of the Report of the Preparatory Committee, and the completion of the Agenda of the Preparatory Committee.

4. Presentation and Discussion of Committee Reports.

A question arises on this item as to the form in which Heads of Delegations consider that the discussion of the Committee's Reports in plenary session should take. The alternatives are that there should be a discussion of each Committee Report in turn immediately after its presentation by the Committee Chairman, or that all the Reports should be presented in turn by the Chairman, and then the general discussion should cover the whole range of the work of the Preparatory Committee during its First Session. It is suggested that the second of these
alternatives is the more logical and desirable, particularly as if the first alternative were adopted there would inevitably be a certain amount of duplication and the proceedings might be protracted.\n
Sixth Plenary Session

Wednesday, 20 November, 10.30 a.m.

1. Presentation and Discussion of Committee Reports (Continued).
2. Adoption of Committee Reports.

It is suggested that the Secretariat should be instructed by the Preparatory Committee to present an interim report to the Economic and Social Council at its Fourth Session in February or March. This interim report should be confined to the communication of the Report of the First Session of the Preparatory Committee, with an outline of the future programme of work of the Preparatory Committee.

4. Any other business.
