Amendment proposed by the New Zealand Delegation

"Governmental Assistance to Economic Development.

1. The Members recognize that special governmental assistance may be required in order to promote the establishment or reconstruction of particular industries and that such assistance may take the form of protective measures. At the same time, they recognize that an unwise use of such measures would impose undue burdens on their own economies, unwarranted restrictions on international trade and might increase unnecessarily the difficulties of adjustment for the economies of other countries.

2. Members undertake to employ in the interests of their programme of development only those measures which are consistent with the purpose, and as far as practicable, the provisions of this Charter.

3. Any member who considers his interests adversely affected by the measures employed by another may complain to the organization whereupon the procedure prescribed in Article 35 shall apply."
