The Indian Delegation wishes to withdraw the amendments proposed by it in E/PC/T/W/145 dated the 31st May, 1947, and to propose the following new amendments:

Article 47, paragraph (e)
At the end of the paragraph, add the words:

"or where expansion is required to aid in the achievement of internationally approved consumption programmes."

(The intention is to permit arrangements to be made for expansion in the production of basic foods with a view to making the additional output available at special prices, even after surplus conditions have developed.)

Article 49, paragraph 1
After the words "a Member having a substantial interest" insert the words:

"or at the request of a competent intergovernmental organisation".

Article 50, paragraph 2 Substitute the following:

"The Organisation shall invite competent intergovernmental organisations to attend or take part in the work of a study group or of a Commodity Conference."

Article 53, sub-paragraph (e)
For the words "within the time-limits of the agreement", substitute the words: "within a reasonable period".

(The problems affecting basic foods may not be capable of being solved within the time-limits of a single agreement.)

Article 54, paragraph 7
At the end of the paragraph, add the sentence:

"It shall also make periodic reports to any other Specialised Agency having a particular responsibility for the commodity or commodities concerned."
