1. In paragraph 3 on page 1 of Document E/PC/T/W/210 Rev.1 the following additions should be made to the list of papers containing proposals and comments:

- Netherlands Delegation E/PC/T/W/200
- United States Delegation E/PC/T/W/123 and W/204

2. The following material should be inserted at the top of page 23 of Document E/PC/T/W/210 Rev.1:

**Paragraph 2**

1. The Netherlands Delegation proposes to put a colon at the end of the first sentence and add "with particular reference to the importance of food and agriculture in relation to the subjects dealt with in Chapter VII."

2. The Netherlands Delegation explains this amendment as follows:

   The First Session deleted the words which are proposed to be re-inserted (c.f. Draft Charter Article 7 paragraph 2) but retained in Article 73 (London Draft) the phrase "as set forth more fully in paragraph (2) of Article 81." The Drafting Committee knocked out these words, presumably because nothing was set out more fully in Article 81 and left everything to agreements. This seems undesirable, the more so since the Report of the Food and Agriculture Organization
Preparatory Commission in its recommendations on the constitution of the World Food Council specifies the International Trade Organization to be invited to send a representative to the meetings of the World Food Council (paragraph 253 under 2.). It is important for the necessary co-operation between the Food and Agriculture Organization and the International Trade Organization in the field of agricultural commodities that there are mutually consistent rules in both organizations. The best place to deal with this problem seems to be Article 81, leaving the way to make the actual arrangements to the Organization.

3. Add the following additional paragraph on page 22 to the comments on Article 77:

The United States Delegation proposes to insert the following new Article 77A:

**Article 77-A**

Functions of the Commission on Economic Development and International Investment

The Commission on Economic Development and International Investment shall have the following functions:

(a) To conduct studies relating to the promotion of industrial and economic development and international investment as provided for in paragraph 4 of Article 12.

(b) To advise and make recommendations to the Executive Board on all matters falling within the scope of Chapter IV and regarding the exercise of the functions of the Organization, insofar as they relate to industrial and economic development, and the promotion of international investment.
