Paragraph 16 of MTN.GNG/NG1/19 should read as follows:

16. Furthermore, the Chairman recalled the informal agreement reached by Ministers at their meeting in Mexico last month concerning the negotiations on market access where it was underlined that "There was consensus on the need to accelerate negotiations in this area. It was proposed that the period 5-15 June 1990 be treated as a deadline for the main elements of the substantive negotiations in this area to be completed, and to aim at having negotiators from capitals in Geneva during that period for intensive contacts. As far as the substance of the negotiations is concerned, many Ministers stressed that there is a strong need to avoid sectoral exclusions from the access negotiations, and several referred also to the need to conduct negotiations on tariffs and NTBs in a simultaneous and, even, in an integrated fashion." The Chairman stressed the need for intensive bilateral negotiations, to begin as early as possible, bearing in mind the time constraints.
