The following communication dated 31 May 1988 received from Mexico is circulated to all participants. The communication contains a common indicative list addressed to Australia, Austria, Canada, EEC, Finland, Japan, New Zealand, Norway, Sweden, Switzerland and the United States. This list includes products falling within product groups I-VI and those not falling within any of the seven product groups.

Attached hereto is the indicative list of products of interest to Mexico for the negotiations which are to take place in the Negotiating Group on Tropical Products. This list is addressed to the following participants: Australia, Austria, Canada, EEC, Finland, Japan, New Zealand, Norway, Sweden, Switzerland and the United States.

In accordance with paragraph (1)(a) of the procedures for negotiations set forth in document MTN.GNG/NG6/6, this indicative list of products is presented for the purpose of requesting the above-mentioned participants to reduce to zero the tariffs they apply on those products, and to eliminate all non-tariff measures affecting access to and trade in their respective markets, it being understood that those results would be bound immediately.

It should be noted that this indicative list contains some products which are not included in the seven product groups which, in accordance with the procedures adopted (MTN.GNG/NG6/6), were selected for the work of the Negotiating Group, it being understood that those product groups do not constitute a definition of tropical products nor an exhaustive listing and that other products might be included as negotiations proceed.

The Government of Mexico reserves the right to modify, expand or withdraw all or part of the content of the present communication, including the indicative list of products.

---

1 This revision provides an English version of the original indicative list in Spanish and includes some technical amendments.
