COMMUNICATION FROM MOZAMBIQUE

Conditional Offer of Mozambique Concerning
Initial Commitments on Trade in Services

The following communication is circulated at the request of Mozambique to members of the Group of Negotiations on Services.

This offer is conditional upon a satisfactory conclusion of the negotiations aimed at establishing a General Agreement on Trade in Services and the achievement of balanced global results in the Uruguay Round.

Mozambique therefore reserves its right to modify, extend, reduce or withdraw the offer at any time prior to the conclusion of the services negotiations.

It is indicated in this offer the sectors or sub-sectors in which the Government of Mozambique is willing to undertake binding commitments, the nature of those commitments and their modes of supply.

Mozambique, which falls under the category of the Least Developed Countries, is undergoing a far-reaching social and economic rehabilitation programme whose overall objectives are: to reverse the decline in production and restore a minimum level of consumption and income for the whole population particularly in the rural areas; to reduce substantially the domestic financial imbalances and strengthen the external accounts and reserves; to enhance efficiency and establish the conditions for a return to higher levels of economic growth once the security situation and other exogenous constraints have been eased; to reintegrate official and parallel markets, etc.

These efforts imply the adoption of new measures, new laws, decrees or regulations in almost every sector.

The situation restricts the possibility for Mozambique offering more concessions, at this stage. Nevertheless, Mozambique would like to reaffirm its commitment to a progressive liberalization on trade in services.
