The Secretariat has received the following letter from the Permanent Mission of the Kingdom of Morocco:

"I have the honour to ask you kindly to invite those participants in the Marrakesh Ministerial Meeting whose delegates will be accompanied by security officers to let us know the characteristics of any weapons and the amount of ammunition, so that the necessary authorizations can be obtained. These weapons and the ammunition must be declared at the airport of arrival and at land and sea frontier posts.

Would you please also kindly inform participants that the use of transmission equipment is likewise subject to prior authorization."
