

MEMORANDUM

II-3-A-2

TO:

11 November 1958

FROM: William E. Roth,
Conference Officer,
GATT secretariat.

SUBJECT: Intersessional distribution of documents to observer
governments

In order to enable observer governments to follow more closely the operation of the General Agreement between sessions, the Executive Secretary has given me instructions to establish a limited distribution of all GATT documents during the intersessional period to those governments which attend regularly the sessions of the CONTRACTING PARTIES. This distribution will be established upon the understanding that all GATT documents are issued as "restricted" and are often of a somewhat confidential nature, and consequently they are for governmental use only, in no case are they available to the public unless it has been announced in the documentation (INF/ series) that they have been derestricted.

I should be grateful if you would indicate below the minimum number of copies of GATT documents your government would require during the intersessional period, and to which address these documents should be sent:

Number of copies: _____

Language: French or English

Address: _____
