TARIFFS AND TRADE

RESTRICTED

Spec(89)7/Add.1
26 April 1989

International Dairy Arrangement

INTERNATIONAL DAIRY PRODUCTS COUNCIL

TWENTIETH SESSION

Draft Report

Chairman: Mr. K. Lillerud

Addendum

The Permanent Mission of New Zealand has suggested the following change to be made in the Draft Report of the twentieth session of the International Dairy Products Council. If no remarks are made by any participant before 8 May 1989, the final report will contain the suggested amendment.

Page 13, paragraph 7 should be read as follows:

"7. World milk production, which had declined by 0.8 per cent from 1986 to 1987, recovered in 1988 reaching almost its level of 1986. A further decline in milk deliveries in the Community and some other European countries was more than outweighed by an increase in the combined production of the United States, Canada and the USSR. In New Zealand, improved weather allowed production in 1988 to recover close to that of 1986."
