Spec(90)1  
23 January 1990

### ANALYTICAL INDEX

The Analytical Index was circulated in 1985 with documents Spec(85)33 and Spec(85)60 to contracting parties for information and comments.

The attached version of the Analytical Index<sup>1</sup> was slightly revised so as to take into account comments received and to update the tabular survey of GATT disputes listed in Section Article XXIII. A comprehensive update of the whole Analytical Index is in preparation and will be published after the close of the Uruguay Round negotiations.

Given the size of the document, only two copies are being distributed herewith to each delegation and in English only. Translations into French and Spanish are in preparation.

Suggestions for improvements (amendments, additions or deletions) are welcome and should be addressed to the Legal Affairs Division of the GATT Secretariat.

---

<sup>1</sup>The Analytical Index is available for sale to the public at the GATT Secretariat or from accredited sales agents of the GATT throughout the world at a price of 250.- Swiss Francs.
