between
the Government of Finland and the Government of Romania

2. These arrangements will apply for the period commencing on January 1, 1991, and ending on December 31, 1999.
3. Romania will authorize exports into Finland of textile products described in Annex I, originating in, and consigned from Romania. Finland will admit such imports, provided that such imports are covered by an export licence and a certificate of origin as per specimens in Annex II and III, issued by the Romanian authorities listed in Annex IV. The date of shipment indicated on the shipping documents shall be considered to be the date of exportation.
4. Romania will forward to Finland quaterly statistics, on a cumulative basis, on imports of the textile products described in Annex I, which are licensed for export to Finland.
5. Finland will forward to Romania quarterly statistics, on a cumulative basis, on imports originating from Romania of textile products described in Annex I.

6. Romania will endeavour to ensure that exports of textile products described in Annex I are spaced out as evenly as possible over the year, due account being taken in particular of seasonal factors.

7. Either Government has the right to request consultations with the other Government on any matter arising from the implementation or operation of these arrangements or on any matter concerning their trade in textile products. The other Government will accept such a request and consultations will be held within thirty days of the date of notification of the request, with a view to reaching a mutually acceptable conclusion within thirty days of the date on which such consultations actually commence.

8. In the event that the Government of Finland believes that imports from Romania of products described in Annex I are, due to market disruption or the threat thereof, threatening to impede the orderly development of trade between the two countries, the Government of Finland may request consultations with the Government of Romania with a view to easing or avoiding such market disruption. The Government of Finland will forward to the Government of Romania at the time of the request available data which in the opinion of the Government of Finland show the existence of market disruption, or the threat thereof, and the causal relation of exports from Romania in that disruption. The Government of Romania agrees to consult with the Government of Finland within thirty days of the receipt of the request for consultations. Both Governments agree to make every effort to reach agreement on a mutually satisfactory resolution of the issue within ninety days of the receipt of such request. If no mutually satisfactory solution is reached during these consultations, the Government of Finland may take the necessary measures to remedy the situation for the duration of these arrangements, in conformity with the rights and obligations under the Arrangement Regarding International Trade in Textiles, the GATT, or another international multilateral arrangement, whichever instrument is applicable for the sector of textiles and clothing in the framework of the duration of these arrangements.
