IMPLEMENTATION OF TEXTILE
AGREEMENTS**

**Requesting Public Comment on and
Announcing Import Restraint Levels
for Certain Cotton, Wool, and Man-

Products From the People's Republic
of China**

January 14, 1983.

On December 28, 1982 a notice was published in the Federal Register (47 FR 57748) which advised the public that if no mutually satisfactory solution were reached by January 15, 1983 in negotiations between the Governments of the United States and the People's Republic of China in the effort to conclude a new bilateral agreement, the United States Government would take further action under Section 204 of the Agricultural Act of 1956, as amended (7 U.S.C. 1854), to control imports of cotton, wool, and man-made fiber textile products from the People's Republic of China, effective on January 1, 1983.

Further discussions have taken place, but no agreement has yet been reached. Accordingly, until modified, pursuant to agreement or otherwise, in order to avoid market disruption, or threat thereof, and to assure that the operation of the Arrangement Regarding International Trade in Textiles (MFA) is not frustrated, the Government of the United States has informed the Government of the People's Republic of China that, effective on January 1, 1983, imports of cotton, wool, and man-made fiber textile products, produced or manufactured in China, will be restrained to ensure that the following levels are not exceeded for the periods indicated below:

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on December 13, 1982 (47 FR 55709).

The foregoing levels, other than those established for the twelve-month period which began on January 1, 1983 and extends through December 31, 1983, supersede levels established for those categories under the terms of the Bilateral Cotton, Wool, and Man-Made Fiber Textile Agreement of September 17, 1980, as amended, which expired on December 31, 1982. The United States reserves the right in light of future trade developments to adjust these levels during the indicated restraint periods and also to control additional categories of textile products.

As announced in the notice document preceding the directive of December 6, 1982 from the Chairman of the Committee for the Implementation of Textile Agreements to the Commissioner of Customs (See 47 FR 55407), charges of 38,351 dozen will be made to the level of restraint for cotton textile products in Category 335 to account for 1981 overshipments which were deducted from imports charged to the 1982 level for this category.

Cotton, wool, and man-made fiber textile products in Categories 331, 334, 335, 338, 339, 340, 341, 347/348, 445/448, and 645/648, exported to the United States during the twelve-month period which began on January 1, 1982 and extended through December 31, 1982, shall, to the extent of any unfilled balances, be charged against the levels of the restraint established for such goods during that period. Cotton textile products in Category 315, exported during the period which began on January 19, 1982 and extended through December 31, 1982, shall, to the extent of any unfilled balance, be charged to the level of restraint established for that period. In the event the applicable restraint levels for these periods have been exhausted by previous entries, such goods shall be subject to the levels for the twelve-month period beginning on January 1, 1983.

Textile products in Categories 337, 640, 641, and 648 and 333, 345, 443, and 635, exported during the ninety-day restraint periods previously established, which are in excess of the levels stipulated for those periods, will be charged to the twelve-month levels established in the following letter to the Commissioner of Customs for the twelve-month periods which end, respectively, on July 29, 1983 and November 25, 1983.

Textile products in Categories 351, 352, 634, and 647 exported during the ninety-day period which began on October 20, 1982 which are in excess of the levels of restraint established for that period will be charged to the levels established for the twelve-month period ending on January 17, 1984.

Textile products in Categories 350 and 447 exported during the ninety-day period which began on December 1, 1982 which are in excess of the levels of restraint established for that period will be charged to the levels established for the twelve-month period ending on February 29, 1984.

All of these actions are taken pursuant to Section 204 of the Agricultural Act of 1958, as amended (7 U.S.C. 1854). The decision to take such actions was made by the Textile Trade

Policy Group at the recommendation of the Committee for the Implementation of Textile Agreements.

Further discussions are anticipated with the Government of the People's Republic of China. The letter published below is subject, therefore, to termination or revision as a result of those discussions.

Any party wishing to comment or provide data or information regarding the treatment of the categories specified in this document, or on any other aspect thereof, or to comment on domestic production or availability of textiles and apparel included in these categories, is invited to submit such comments or information in ten copies to Mr. Walter C. Lenahan, Chairman, Committee for the Implementation of Textile Agreements, International Trade Administration, U.S. Department of Commerce, Washington, D.C. 20230. Since the exact timing of further discussions with the Government of the People's Republic of China is not certain, comments should be submitted promptly. Comments or information submitted in response to this notice will be available for public inspection in the Office of Textiles and Apparel, Room 3100, U.S. Department of Commerce, 14th and Constitution Avenue, N.W., Washington, D.C. 20230, and may be obtained upon written request.

Further comment may be invited regarding particular comments or information received from the public which the Committee for the Implementation of Textile Agreements considers appropriate for further consideration.

The solicitation of comments is not a waiver in any respect of the exemption contained in 5 U.S.C. 553(a)(1) relating to matters which constitute "a foreign affairs function of the United States."

In the letter published below the Chairman of the Committee for the Implementation of Textile Agreements directs the Commissioner of Customs, effective on January 1, 1983 and for the stipulated restraint periods, to limit the amounts of cotton, wool, and man-made fiber textile products in the foregoing categories, produced or manufactured in the People's Republic of China, which may be entered or withdrawn from warehouse for consumption in the United States, to the designated levels.

Effective date: January 19, 1983.

In the event the levels for those foregoing periods have been exhausted by previous entries, such goods shall be subject to the levels set forth in this directive for the twelve-month period which began on January 1, 1983. Cotton, wool, and man-made fiber textile products in Categories 342, 448, 631, and 649 which have been exported before January 1, 1983 shall not be subject to this directive.

Textile products in Categories 337, 640, 641, and 648 and in Categories 333, 345, 443, and 635 exported during the previously established ninety-day periods, shall, to the extent of any unfilled balances, be charged to the levels of restraint established for those ninety-day periods. Merchandise in Categories 337, 640, 641, and 648 and in Categories 333, 345, 443, and 635 which is in excess of those levels shall be charged to the levels established in this directive for the respective twelve-month restraint periods which end on July 29, 1983 and November 25, 1983.

A description of the textile categories in terms of T.S.U.S.A. numbers was published in the Federal Register on December 13, 1982 (47 FR 55709).

In carrying out the above directions, the Commissioner of Customs should construe entry into the United States for consumption to include entry for consumption into the Commonwealth of Puerto Rico.

The actions taken with respect to the Government of the People's Republic of China and with respect to imports of cotton, wool, and man-made fiber textile products from China have been determined by the Committee for the Implementation of Textile Agreements to involve foreign affairs functions of the United States. Therefore, these directions to the Commissioner of Customs, which are necessary for the implementation of such actions, fall within the foreign affairs exception to the rule-making provisions of 5 U.S.C. 553.
