Ambassador M. Raffaelli Chairman Textiles Surveillance Body GATT Secretariat Centre William Rappard 154, rue de Lausanne 1211 Geneva 21

Dear Ambassador Raffaelli,

I have the honour to forward to you notification of a modification of the provisions of the memorandum of understanding between Canada and the Government of the Kingdom of Thailand and between Canada and the Government of Hong Kong respecting certain textile products.

Yours sincerely,

J.L. MacNeil

Minister

J.9.

Short Reasoned Statement to accompany the notification to the Textile Surveillance Body of a modification of the provisions of the Memorandum of Understanding between the Government of Canada and the Government of the Kingdom of Thailand relating to the export from Thailand of certain textiles and textile products for import into Canada.

With reference to paragraph 4 of Article 4 of the Arrangement Regarding International Trade in Textiles (hereinafter referred to as the MFA), done at Geneva on December 2, 1973, and to the Protocol extending the MFA, done at Geneva, December 22, 1981, I have the honour to notify the Textile Surveillance Body of two amendments to the provisions of the current restraint arrangement concluded between the Government of Canada and the Government of the Kingdom of Thailand. Pursuant to the consultation levels provisions as set out in paragraphs 30 to 33 of the current arrangement, the amendments provide for the conversion of the consultation levels governing the export of jackets and trousers, shorts, overalls and coveralls from Thailand to Canada into specific restraint levels effective from January 1, 1983 to December 31, 1986.

These modifications were agreed upon by the two Governments in December 1983, taking into consideration the circumstances currently affecting the Canadian clothing market and the position of Thailand as an established supplier to that market. The clothing products subject to the modifications fall within the scope of the MFA. The 1983 base levels applicable were established in accordance with consideration historical trading patterns and other provisions contained in Article 4 of the MFA and its Protocol of Extension.

In line with MFA guidelines, the amendments contain provisions for annual growth rates of 6 percent. The flexibility provisions allow for a swing provision established at 6 percent between any category included in the current arrangement and a carry-over/ borrow-forward of 11 percent with the sub-limit for borrow-forward of 6 percent.

The Government of Canada believes these modifications are in conformity with the provisions of the MFA and its Protocol of Extension and, as such, are in keeping with the gradual liberalization of the Canadian import programme on clothing and textiles.

Accept, Sir, the renewed assurance of my highest consideration.

#### Agreed Record of Consultation

Delegations representing the Government of Canada and the Government of the Kingdom of Thailand met in Bangkok on December 12-13, 1983 to consider the Canadian request for consultations regarding exports from Thailand of jackets (Item 6 of Annex I) to Canada in accordance with the provisions of paragraphs 30 to 33 of the Memorandum of Understanding between the Government of Canada and the Government of the Kingdom of Thailand relating to the export from Thailand of certain textiles and textile products for import into Canada as concluded in Chiangmai, Thailand.

During the consultations, the delegations agreed to convert the existing consultation level governing the export of jackets from Thailand to Canada into a specific restraint level for the duration of the life of the Memorandum of Understanding (i.e until the end of 1986). In this regard, a 1983 restraint level for jackets was established at 600,000 units with an annual growth rate of 6 percent. In addition, it was further agreed that this category shall be accorded swing of 6 percent and carryover and carry-forward of 11 percent, of which carry-forward shall not be more than 6 percent. Finally, for the purpose of using the swing provisions, the conversion factor for jackets shall be 3.0 square meters per unit.

With respect to the consultations held between the two delegations in Bangkok on August 15-16, 1983 and further to Thai acceptance of the Canadian proposal to convert the consultation level governing the export of trousers, shorts, overalls and

/2....

coveralls (Item 4 of Annex I) into a specific restraint for the duration of the life of the Memorandum of Understanding, a 1983 level of 470,000 units was established with an annual growth rate of 6 percent. It was also agreed that swing shall be 7 percent and carryover and carry-forward shall be 11 percent with carry-forward to be not more than 6 percent. It was also agreed that the conversion factor of 1.90 square meters shall apply.
