Short Reasoned Statement to accompany the notification to the Textile Surveillance Body of a modification of the provisions of the Memorandum of Understanding between the Government of Canada and the Government of People's Republic of China relating to export from China of certain textiles and textile products for import into Canada.

With reference to paragraph 4 of Article 4 of the Arrangement Regarding International Trade in Textiles (hereinafter referred to as the MFA), done at Geneva on December 2, 1973, and to the Protocol extending the MFA, done at Geneva, December 22, 1981, I have the honour to notify the Textile Surveillance Body of an amendment to the provisions of the current restraint arrangement concluded between the Government of Canada and the People's Republic of China. The amendments provided for the inclusions of dresses and skirts; athletic sets or suits, leisure wear, miscellaneous garments; and foundation garments under the coverage of the current arrangement.

These modifications agreed upon by the two Governments in April 1984, take into consideration the circumstances currently affecting the Canadian textile market and the position of China as an established supplier of that market. The textile products subject to the modifications fall within the scope of the MFA. The 1984 base levels were established taking into consideration historical trading patterns and other provisions contained in Article 4 of the MFA and its Protocol of Extension.

In line with the MFA guidelines, the amendments contain provisions for an annual growth rate established at 6 percent. The flexibility provisions allow for a 7 percent swing between categories in the current arrangement, and a carry-over/ borrow-forward of 11 percent.

The Government of Canada believes these modifications in conformity with the provisions of the MFA and its Protocol of Extension and, as such, in keeping with the gradual liberalization of the Canadian import programme on clothing and textiles.

Accept, Sir, the renewed assurance of my highest consideration.

During these discussions, it was agreed that Chinese authorities will restrain, effective January 1, 1984, exports of dresses and skirts, athletic sets or suits and foundation garments from China to Canada through the issuance of export licences endorsed and issued by the appropriate authorities of the Government of the People's Republic of China.

The Chinese side agreed.
- 7. It was agreed that overshipments of certain restrained items from China to Canada in 1983 will be allowed entry into Canada and will be deducted from the corresponding restraint levels in 1984. The exact amounts of such overshipments will be mutually agreed following reconciliation of statistics and the application of the relevant flexibility provisions in the Memorandum of Understanding Relating to the Trade in Certain Textile and Clothing Products Between Canada and the People's Republic of China.

8. It was agreed that Canada would send experts to China at a time to be agreed in late 1984 or early 1985 to conduct seminars on the Canadian system of classification of the textile and clothing items subject to restraint. It was envisaged that these seminars would take place in various Chinese cities over a period of about ten days. The Chinese authorities will propose a specific itinerary and the Canadian authorities will propose the agenda for the seminars.
