1. The Textiles Surveillance Body held its fifth meeting of 1989 on 23 to 26 May.
2. Present at the meeting were the following members and/or alternates: Messrs. Boisson, Castro, Choi/Lau, Gero/Wentzel, Koda/Mrs. Saiki, Messrs. Munir, Salim and Shepherd.
3. The report of the fourth meeting has been circulated in COM.TEX/SB/1474.

Reports on measures reviewed under Article 3:5

Canada/Brazil

4. In accordance with the request of the TSB that Canada and Brazil report back to it, preferably by 23 May 1989, on bilateral consultations recommended to them,² the Chairman had informed the TSB that he had received reports from both parties that they had not yet held consultations.

United States/Thailand

5. Further to the report from the United States of its decision not to seek renewal of the restraint on Category 670-L when imported from Thailand,² the TSB heard a statement from Thailand related to the composition of its exports of luggage to the United States.

6. The TSB decided that since the restraint had expired, it was not necessary to revert to the matter at this stage, but agreed that it might do so if Thailand found it necessary to raise the matter at a later occasion.

Measures taken under Article 3:5(i)

United States/Thailand

7. The TSB received a notification from the United States of unilateral measures taken under Article 3:5(i) on Categories 345 (cotton sweaters), 363 (cotton towels), 369-D (cotton dish towels) and 301pt/607pt (cotton and polyester blended yarn) when imported from Thailand. The measures were taken for the calendar year 1989 with respect to Categories 345, 363 and 369-D, and for the period 30 January 1989 to 29 January 1990 for Category 301pt/607pt.

8. The TSB heard presentations from the parties regarding these measures.

9. The TSB regretted that the restraints had been introduced before the parties held consultations as required by Article 3. It noted that both parties declared their willingness to hold such consultations.

10. The TSB therefore decided not to examine, at the present meeting, the occurrence of market disruption, and recommended that the parties consult as early as possible and report back to it on the result of such consultations. The TSB also decided that, after receiving the reports, it would revert to these cases, if necessary.

11. The TSB further recommended that, pending the conclusion of the bilateral consultations, the United States pay particular attention to avoid the disruption of the normal flow of Thai exports in the products concerned.

Matters referred under Article 3:5(ii)

Thailand/United States

12. The TSB received a notification from Thailand regarding requests for consultations made by the United States under Article 3:3 on Categories 335, 448 and 635. In its notification, Thailand requested the Body to decide whether the United States had correctly interpreted the Arrangement when calculating the minimum levels that would be applicable to Thai exports of those Categories. Delegations from both parties were present at the meeting.

13. The Government of the United States having informed the Body of its decision to cancel the requests for consultations on Categories 335 and 635, the TSB decided not to address them.

14. After having heard presentations from both delegations on Category 448, the TSB concluded that Designated Consultation Levels such as those appearing in the United States/Thailand Agreement which expired on 31 December 1988, could, under certain circumstances, have restrictive effects on trade similar to those of specific restraints.

15. With respect to the DCL previously existing on Category 448, the TSB did not examine the effects of its application, but recommended that the DCL applied under the expired agreement be taken into account, together with other elements related to the market situation.
