DATA ON COMMERCIAL POLICY MEASURES APPLIED BY INDUSTRIALIZED GATT COUNTRIES IN RESPECT OF PRODUCTS EXAMINED BY COMMITTEE III

At its meeting on 12 and 13 October Sub-Committee 1 of the Action Committee requested that it should have available to it at its next meeting comprehensive data on commercial policy measures affecting products presently covered by the Action Programme. In accordance with this request the secretariat has drawn up this paper which shows, in tabular form, data on quantitative restrictions (Table 1), customs duties (Table 2) and internal charges (Table 3) at present applied by industrialized GATT countries in respect of products which have already been examined in detail by Committee III.¹

Data showing the import treatment in industrialized GATT countries of a further list of products are being circulated in a separate document.

¹The information contained in this paper incorporates the amendments and corrections to documents COM.III/119/Rev.1 and AC/SC1/11 which have been notified to date. For details about progress recently made in the relaxation of barriers see document AC/SC1/11/Rev.1.

Table 1
