Limited Distribution

GATT DOCUMENTS ON MICROFICHE

As mentioned in document INF/162/Rev.1 of 11 August 1976, the GATT secretariat is making copies of GATT documents on microfiches available to delegations.

Microfiche copies can be ordered of the documents on the attached list, including revisions, addenda and corrigenda, in English, French and Spanish to the extent that the document was issued in these languages.

To facilitate the processing of orders, delegations are requested to place them in the first month of each quarter, as far as possible.

Types of microfiches in use

Norm ISO microfiche 145 mm x 105 mm, 58 frames per microfiche: reduction 20/1, silver-base. One sample of a microfiche is attached for each delegation. Some microfiches containing short texts were, for convenience, prepared in three languages, English, French and Spanish.

Price

As from 1 January 1978, the current price is Sw F 2 per microfiche.

Note: Most documents issued before 1 January 1971 have been copied on microfilm and these are now being converted into microfiches. Copies of the microfilms can be made available on request at the current price of Sw F 30 per reel. However, in view of the mediocre quality of the microfilm copies, delegations are advised to wait for the microfiches to be available before placing orders, which is expected to take about a year.
