DERESTRICTION OF DOCUMENTS

1. The procedure for the derestricion of documents provides, inter alia, that documents produced up to 31 December be derestricted on 31 March of the following year and those pertaining to a session of the CONTRACTING PARTIES be derestricted 90 days after the close of the session which, for the Ninth Session, is 5 June 1955. Since most of the documents produced up to 31 December 1954 relate to the Ninth Session, it seems convenient to combine these two operations.

2. Accordingly, on 5 June, unless any indication to the contrary has been received from any contracting party, the following documents will be derestricted (with the exceptions noted in paragraph 3 below).

   All documents in the G series up to G/97.
   All documents in the L series up to L/348. EXCEPT L/320, the Interim Report of the Working Party on Commodity Problems, which has still to be considered by governments and the Working Party, and the Annex to L/337 containing notes on Article XIV:1(g) consultations.

3. The following documents in the G and L series continue to be classified as restricted as a result of requests in previous years by various contracting parties or the IMF.

   G/4/Add.3.

4. It will be noted that document INF/24 already proposed the derestricion of certain documents pertaining to the Ninth Session on 1 May so that they might be published in the Third Supplement to the Basic Instruments and Selected Documents. No objection has been received to this proposal. Moreover certain documents were derestricted during the Ninth Session by Decision of the CONTRACTING PARTIES. The following is the list of documents that will be derestricted on 1 May 1955:

   G/86, 87, 88, 91, 92.
   L/294, 305, 327, 328, 329, 331, 332, 333, 334, 335, 337, 339, 344 and W.9/178 and 237

   together with their addenda and corrigenda.

---

1 INF/18.

2 Except for the Annex.
