INFORMATION ON IMPLEMENTATION AND ADMINISTRATION OF THE AGREEMENT

Legislation of Sweden

The Permanent Mission of Sweden has transmitted to the secretariat an English translation of an Extract from the Customs Ordinance No. 979 concerning anti-dumping and countervailing duties.

Extract from Customs Ordinance No. 979

(Issued on 14 December 1973)

Article 3

The government may decree that anti-dumping or countervailing duties shall be levied on import products for the purpose of preventing Swedish industries from being injured by dumping or subsidization from abroad. Such a decree may also be issued for the purpose of preventing industries in another country from being injured by dumping or subsidization.

A decree pursuant to the first paragraph may be issued for the period during which further investigations take place. If these investigations show that there are no grounds for this provisional decree, it shall be cancelled. The duty paid on account of that decree shall then be reimbursed without delay.
