The procedure lays down two provisional courses of action. The first, put into action on receipt of the complaint on compliance, may entail the imposition of an anti-dumping duty or merely a formal declaration that the investigation is being opened. The second is a routine official review by the authority to confirm, amend or reverse the first.

¹ Trade volume based on statistical data for the latest available calendar year prior to initiation.

² Percentage, or amount per unit, as appropriate.

³ Declaration that investigation is being opened without imposition of quota.

⁴ Countervailing quota repealed; investigation continuing.

⁵ Revision of the final decision.
