The following communication, dated 30 April 1980, has been received from the delegation of Norway.

Pursuant to the discussion at the 20 February 1980 meeting of the Committee on Trade in Civil Aircraft, I have been instructed to forward the following information concerning the list of entities operating military aircraft:

The Ministry of Defence was listed as the only entity operating military aircraft in Norway. This includes the Westland Sea King search and rescue helicopters as these helicopters are operated by, manned by and fully integrated in the Norwegian Air Force. It also includes the aircraft and helicopters of the Norwegian Coast Guard as this service is part of the Norwegian Armed Forces.
