Agreement on Trade in Civil Aircraft

Original: English

## TECHNICAL SUB-COMMITTEE ON TRADE IN CIVIL AIRCRAFT

### 1982 Import Statistics - Aircraft

#### NORWAY

The following communication, dated 6 June 1983, has been received from the Delegation of Norway.

---

According to AIR/M/2, paragraph 38, please find enclosed a table showing duty free imports of some products under the Agreement on Trade in Civil Aircraft for 1982.

The statistical information presented is based on existing trade statistics. Since the products covered by the Agreement do not have separate statistical numbers in the Norwegian customs tariff, it has not been possible to provide data for such products solely. The enclosed table therefore provides information only on tariff items fully covered by the Agreement (i.e. no ex-items are included in the list) and it does not separate military from civil aircraft products.

LIST OF NORWEGIAN TARIFF ITEMS WHICH ARE COVERED BY THE AGREEMENT ON TRADE IN CIVIL AIRCRAFT AND WHICH ENTIRELY CONSISTS OF AIRCRAFT PRODUCTS (i.e. no ex-items)

Note: The figures include military as well as civil aircraft products.
