NOTIFICATIONS OF IMPORT RESTRICTIONS OF NEWLY-INDEPENDENT COUNTRIES

Addendum

TOGO

The Government of Togo, in response to the invitation in GATT/AIR/593, has reported that the only import restriction maintained by Togo concerns the quantitative limitation on printed textiles imported from Japan.

The quantity of such goods imported from that source has been reduced to an amount corresponding to two thirds of consumption, the remaining third to be supplied to the market by domestic industry.

This information is submitted without prejudice to the question of the consistency of the measures with the obligations of the General Agreement.

1For earlier notification by Togo, see L/2577/Add.8.
